

Do You Have An Overactive Bladder?

If you are a male 50 years of age or older, and answer yes to any of the following questions, you may have an overactive bladder that can be helped with medication:

- Do you urinate more than 8 times in a 24-hour period?
- Do you frequently get up 2 or more time a night to go to the bathroom?
- Do you have uncontrollable urges to urinate and/or wetting accidents?
- Do you frequently limit your fluid intake when you are away from home so you won't have to worry about finding a restroom?
- Do you frequently have strong urges to urinate?
- Do you use pads and/or adult briefs to protect your clothes from wetting?

Overactive bladder affects 17 million people in the United States. It is not normal at any age, and it is a treatable medical condition. Please call (516) 627-6188 Extension 149 to make an appointment with one of our urologists today.
