

## Facility Information

**Facility Address**  
535 Plandome Road  
Suite 3  
Manhasset, NY 11030

## Facility Equipment

### A. In- House Diagnostic Suites

**CAT Scan Suite**—GE Single Slice High Speed Advantage CT/i Perfomix 6.3 MHU Tube CAT Scan, used to detect abnormalities such as infections, tumors, cysts, blood clots, and fractures

**Urodynamics Suite**—Karen Hiller, RN, MSN, ANP

Urodynamic studies investigate your bladder, urethra, and sphincter to assess their efficiency. They consist of studies to assess how your bladder fills, stores, and empties.

**X-Ray Suite**

IVP/KUB: (X-ray of the bladder, kidneys, and urinary tract)—intravenous pyelogram: X-ray of kidney, urinary tract and bladder using dye (KUB No dye used)

### **Procedure Suites**

Indigo Laser Treatment—used to eliminate excess tissue

Digital Cystoscopy—visual examination of the bladder and urinary tract

## **B. In-House Services**

### **In-House Pathology Laboratory**

The pathologist in our office reads prostate biopsy slides and urine cytology slides.

### **In-House Laboratory**

Processes PSA, Free PSA, Urine Culture, Cytology, BUN, Creatinine

**In-House Surgical Booking Office** Our in-house surgical booking staff serve as liaisons between patient and doctor pre- and post-surgery. They coordinate care with patients and

schedule all ambulatory (out-patient) and in-patient surgical procedures at North Shore University Hospital, Manhasset and St. Francis Hospital, Roslyn.

**In-House Clinical Research Department**

Urology Associates, P.C. is currently involved in four to five clinical trials—testing new medications and treatment options.
